### Summary

my journey as a software developer reflects my strong problem-solving skills, mastery of JAVASCRIPT, PYTHON, HTML, SQL and collaborative nature. I played a pivotal role in many projects, demonstrating my dedication and meticulous attention to detail. I am committed to continuous learning, ensuring I stay updated with industry trends and swiftly adapt to emerging technologies. By combining my technical proficiency with effective communication and teamwork, I am poised to make meaningful contributions and excel in all my future endeavors.

### Experience

#### Software Developer

Hikenrides(Part-time)

september 2023 - Present (1 year)

Description: As a Full-Stack Developer at a start-up company called Hikenrides, I played a crucial role in developing and maintaining a dynamic web application(<https://hikenrides.com>) designed to connect drivers and passengers for cost-effective and safe commuting. My responsibilities spanned the entire technology stack, from front-end user interfaces to back-end server logic, ensuring a seamless user experience and efficient application performance.

#### Software Developer

Self-employed

Nov 2022 - Present (1 year)

Description: As a Software Engineer/Web Developer, I have been responsible for designing, developing, and deploying websites in collaboration with a team of skilled software engineers. My role involved both front-end and back-end development, as well as active participation in the full software development lifecycle, from initial concept to final deployment.

### Education

**Codecademy**

**JAVA**

Jan 2024 - Present

**freeCodeCamp**

Computer Software Engineering

2022 - 2024

**St** **Self-taught**  
software developer  
**2021 – Present**

**University of limpopo**

Feb 2024 – Present

## Licenses & Certifications
